

Nutrifaster® N300

*N300 Juice Extractor,
Ideal for any kitchen !*

The Nutrifaster® N300 juicer is the most operator friendly juice extractor available on the market. The compact stainless steel design makes it ideal for low to medium juicing in health clubs, juice bars, restaurants, and households.

This juicer provides juice yields that will surpass or equal any juice extractor on the market today. The powerful, enclosed 1 HP motor and stainless steel juicing parts make it durable and easy to clean.

The Nutrifaster® N300 juicer is a leader in the health and nutritional field. Provide your customers with fresh juice, an intricate part of today's healthy lifestyle.

Maximize profits by serving fresh juice from your Nutrifaster® N300 Juicer!
